The facility is very clean, neat, organized and comfortable with all modern amenities. The majority of the guests come repeatedly to unwind, heal and rejuvenate.

The restaurant serves vegetarian food, both traditional Indian and continental dishes, which are recommended by doctors. Room service is available upon request. SOUKYA, Dr. Mathai’s International Holistic Health Centre, is a unique facility that helps restore the natural balance of your mind, body and spirit by combining modern medical advancements, ancient medical techniques and complementary therapies used worldwide. This residential facility brings in the best medical doctors and therapies from around the world.

SOUKYA is derived from the Sanskrit word 'Soukhyam' which means well being and a harmonious state of the mind, body and spirit. Also, in South India, people greet one another with 'Soukhyama' (Tamil) or 'Soukhyamano' (Malayalam) which means 'Are you well?'.

An ancient traditional system of medicine, Ayurveda is considered to be the oldest system of health care, with literature going back 5000 years and an oral tradition that is much older. This healing system has been practiced in daily life in India for more than 5000 years. 'Ayur' means 'Life' and 'Veda' means 'Science'. Thus Ayurveda is the 'Science of Life'.

In Ayurveda, health is a state of spiritual and physical attainment. It is a medical, metaphysical healing life science - the mother of all healing arts. The practice of ayurveda is designed to promote human happiness, health and creative growth. It is the science of daily living and this system of knowledge evolved from the sage’s practical, philosophical and religious illumination which was rooted in their understanding of the creation. Ayurveda helps the healthy person to maintain health and the diseased person to regain health.

The body is made up of Tridoshas ('Tri' means 'Three' and 'Doshas' mean 'Humours') - Vata is Air, Pitta is Fire and Kapha is Water. Good health means a normalcy in the Tridoshas, balance of metabolic, systemic and excretory functions, all five senses and in the mind and spirit.
